Living On Wood Flooring

About Ua Floors

Founded in 1992 with an emphasis on health, quality and environmental friendly manufacturing practices, Ua adheres to this philosophy and provides its customers with nothing less ever since.

We meticulously choose from sustainable materials and produce with minimum waste, without compromising on the quality of our products and caring about our customers' health.

Our flooring complies with CARB II, EPA TSCA VI and E1, the most stringent volatile organic compound (VOC) emission standards and to boost your health further we apply FIR Energy coating to our products.

Non-toxic, Energy, Health, Green Lifestyle! Bring the goodness of nature into your home!

Certified quality

Our eco-friendly plywood is non-toxic and meets the ultra-low formaldehyde emission standard CARB II, EPA TSCA VI and the European E1 standard.

Safe and healthy environment for kids

Nano-bacteriostatic technology in our floorings' coating with its proven resistance to bacteria helps to provide a safe and healthy environment for your children and you.

Far Infrared Energy Flooring - Not just wood flooring

Far Infrared Rays, also known as biogenetic rays are part of the invisible sunlight spectrum. They promote health and growth of living cells, in plants, animals and human beings.

The human body contains more than 60% water by weight. When skin comes in contact with Ua Far Infrared (FIR) Energy Flooring, the FIR energy causes a resonance that ionizes and activates the water molecules in our body's cells and blood, thus improving blood circulation.

Before Touch

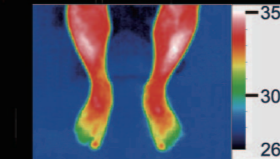

After 30 Seconds

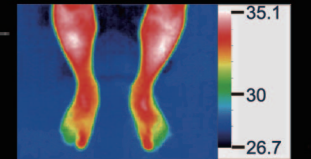

Images taken with a 360x microscope to compare microvascular blood circulation before and after direct skin contact with Ua Floors' Far Infrared Energy coated flooring.

Before Touch

After 3 minutes

Body warmth development when standing on Ua FIR Energy Flooring taken with a thermal imaging camera.

ABOUT OLDE CHARLESTON...

Ua Floors Olde Charleston offers you a variety of American Heritage themed decors with distinctive character.

Olde Charleston Standard Collection features absolutely stunning floors with a rough textured look, which harmonizes beautifully with any decor, from rustic to modern. All with something special: from the history of our True Reclaimed Heart Pine to the hearth tones of Hickory or the nostalgic looks of American classics – White Oak, Hard Maple & American Walnut. Nothing fake, nothing artificial! What you see is the individual characteristics that only nature can provide. Olde Charleston will surely turn your home into a natural heaven.

Designer Collection hardwood's circular and straight saw marks with multi-width planks all coming in one box is what will bring compound yet charming look of a true American design. Designer Collection flooring is perfect for all of the homeowners who appreciate the natural hardwood features with distinctive knots and distressed marks.

True Reclaimed Heart Pine

The True Reclaimed Heart Pine is the wood we restore from the once thriving textile mills. These sites are carefully deconstructed to salvage as much reusable wood as possible. The reclaimed materials are often marked with larger knots, nail holes, and, at times, may even be left with oil stains from the lubrication used on the machinery which were housed in the buildings from which these textiles. However, we do not attempt to fully patch or fill all holes, as this is the nature of our product. Much like the patterns of history, the beautiful, diverse colors and grain textures of the refurbished antique wood will enhance the beauty of your home.

THE BEST PRODUCT THE INDUSTRY HAS TO OFFER
